### Natural Intervention in Protease Activity and pH

Ionogen Formulation Ointment for Advanced Woundcare

#### Principelle

We develop and market advanced wound care products based on novel ideas, aimed at difficult to heal wounds or special applications. We work closely with clinicians, researchers, product developers and partners manufacturing products for sale under our brand names. Please visit us at [www.principelle.com](http://www.principelle.com)

# Principelle IF Ointment

## iCare - Intelligent Care: Natural Intervention

Selected natural components intervene to achieve protease and pH modulation. Altering these conditions guides chronic wounds back to appropriate stages of healing. Principelle IF® Ointment is a medical grade dark buckwheat honey, containing a blend of trace elements and oxides. The dressing formulation contains no synthetic components. Principelle IF® normalises the wound micro-environment by restoring the protease balance and regulation of bacterial contamination and inflammation in therapy resistant wounds. The ointment is available as impregnated acetate gauze dressing and in a tube.

## iCare - Intelligent Care: Continuing Care

To nurse and to care are verbs. Extending the caring nurse requires effective, prolonged intervention beyond the caring hands. Modulating biochemical components and processes over a prolonged time ensures maximum benefit from each dressing change. It is a challenge to build nursing care into each product.

IF Ointment can be used for acute and chronic wounds. A wide range of woundtypes of diverse etiology such as diabetic foot syndrome, decubitus, burns, ulcer cruris, cavity and tunneling wounds, are indicated. The product may be used on dry and wet wounds. In cases of moist or wet wounds a secondary absorbing dressing is indicated.

## Ordering Principelle IF based products:

Product type	Quantity	Size	Order number
Principelle IF Ointment	10	10 g tube	PPIF10-10
Principelle IF Ointment	10	15 g tube	PPIF15-10
Principelle IF Ointment	10	20 g tube	PPIF20-10
Principelle IF dressings	10	5 x 6 cm	PPIF0506
Principelle IF dressings	10	8 x 10 cm	PPIF0810
Principelle IF dressings	10	8 x 20 cm	PPIF0820
Principelle IF dressings	10	10 x 30 cm	PPIF1030
